

## WHAT IS A LICENSED PRACTITIONER?

The Centers for Spiritual Living licenses professional practitioners. Such persons are trained to work with others. Practitioners are competent in the spiritual philosophy and practice of the Science of Mind. Their primary objective is to use effective, affirmative prayer, or spiritual mind treatment to heal limiting conditions for their clients.

The practitioner's method of prayer involves unifying in consciousness with the Truth of each person's being as "Perfect, Whole and Complete," then speaking the Word in prayer to heal the particular condition or to demonstrate a particular good.

### HOW TO WORK WITH YOUR LICENSED PRACTITIONER

You can work with your practitioner in several ways:

- over the phone
- in person
- by email

Together, you and your practitioner can help you achieve an increased experience of love, joy, gratitude and abundance in your life!

### HOW DOES A LICENSED PRACTITIONER HELP?

A practitioner helps by providing a calm, peaceful optimistic consciousness for a client to experience, particularly when a challenge makes such a person emotional and anxious. A practitioner will listen to the client without judgment. When the practitioner is clear about the client's desire, the practitioner will establish an atmosphere of peace. The practitioner will then speak the Truth about that client by establishing in Mind that the client is an individualized expression of God's perfection. Knowing the Truth for the client will evoke the Law of Good and bring the desired good into the client's experience.

### HOW DOES SPIRITUAL MIND TREATMENT HELP?

Sometimes we are so close to our own situation we cannot arrive at an objective viewpoint regarding it; or we may lack the experience or training needed to solve the problem or see other possibilities. Working with a licensed practitioner helps us meet the immediate situation. The practitioner will explain how to sustain the healing or correction, and how to meet future situations.
